FEEDING DIRECTIONS:

Feed at the rate of 4 oz per head per day. Consult your nutritionist for further instructions on incorporating Equi+ Elevate into a complete ration. A source of pasture and/or hay must also be supplied, along with a source of salt and fresh, clean water.

WARNING: This product, which contains added copper, should not be fed to sheep or related species that have a low tolerance to copper.

This product has been formulated specifically for horses and is not intended for other species.

CAUTION: Follow label directions. Feeding this feed containing added selenium at levels higher than recommended is not permitted.

For equine use only.
